PROJECTS

Fitness Tracker
https://github.com/tpham912/FitnessTracker | https://evening-spire-09719.herokuapp.com/
- Website that allows users to keep track of sets of workouts. Users can add either resistance or cardio exercises. Depending on the workout, users are able to add duration, weight number, or sets of exercises.
- Developed the backend service that hosts RESTful APIs using Javascript, Mongoose, and NodeJS.
- Hosted service using Express Server and worked on graphing statistics.

Grey Memorial Hospital's Pharmacy System
https://github.com/tpham912/HospitalDashboard | https://pure-savannah-55760.herokuapp.com/
- Pharmacy system designed for doctors and patients to view their own portal for treatment management.
- Implemented homepage using Bulma within Handlebars.js and created treatmentViewRoute.js for site routing.
- Set up models in Javascript and SQL seed data for testing the backend service.
- Technologies used include Javascript, Bulma, Express.js, MySQL, NodeJS, Heroku, Handlebars.js, and Sequelize-ORM.

Non-fungible Token (NFT) Marketplace
https://github.com/tpham912/NFTMarketPlace | https://stark-wildwood-90610.herokuapp.com/
- Digital marketplace where users can purchase GIF artwork.
- Designed UI/UX and developed front-end to make the web page interface fit the vaporwave aesthetic.
- Technologies used include Javascript, HTML, CSS, Express.js, NodeJS, Apollo Server, Mongoose, ReactJS, JWT, Stripe, and AtlasDb.

PROFESSIONAL EXPERIENCE

Propath - *Lab Technician* - Dallas, TX   Aug. 2020 - Jun. 2021

- Collaborated with a team of 5 to provide excellent quality of specimen to pathologist and cytotechnologists for accurate diagnosis.
- Utilized problem solving and organizational skills to increase specimen production by 10% in a day.
